Senior CS Student

I am dedicated to being an amazing software developer.

I learn quickly, communicate well, and do what it takes.

Projects

Website for Rodney M. Scott, Estate Planning & Elder Law

I built this website for the Rodney M. Scott Law firm. It is uniquely suited to the business, with a database for storing important information. Created using Python, Django, and a PostgreSQL Database on AWS.

Python-based Console Game Engine

This game engine, made in python, allows developers to easily create real-time console games. It can be downloaded now using pip. It is a collaboration with my mentor and friend, Nate Brooks. I also built a fully functioning Tetris game using the engine.

Game Mod to Stardew Valley

I created a mod to Stardew Valley that spawns a Newspaper at the players' front door containing relevant, dynamically generated information. It has nearly 1,000 downloads! Created using C# and .NET.

SKILLS

- Python
- Java
- HTML
- CSS
- C++
- Django
- Linux OS
- MySQL
- Computer hardware

EDUCATION

Bachelor's Degree in Computer Science

Southern New Hampshire University,
Graduation (*pending*) August 2022

Bachelor's Degree in Environmental Science

Southern New Hampshire University,
Graduated March 2021

Work History

Delivery Driver, DoorDash

09/2019 to Current

Climbing Coach, Climb Murfreesboro

08/2018 to 03/2020

- Managed groups of approximately 10 kids, aged 7-1
